STRONGEST IMMEDIATE DEFENSIBLE LANE

2-Week Founder Actions

1. Produce claim-to-line appendix with exact file+line anchors for all candidates.
2. Capture 5 outcome events in wallet ledger (not only sends).
3. Freeze one canonical report profile for repeatability evidence.
4. Prepare counsel handoff packet: claims, risks, prior-art caveats, and artifacts.

100-Pass Audit Rule

Every pass must log:

- pass number
- timestamp
- render status
- validation status
- output file size

No pass may claim market proof or legal grant.
