

COMET LEAP: Mini Buffett/Bezos-Style 30-Day Update Model (Merged)

Reference-only visual timeline using abstract PNG art panels, with daily operational breakdown tables.

Master Convergence Table

Phase	Days	Objective	Output	Confidence Gate
Foundation	1-5	Baseline + stabilization	truth audit + focus loop	evidence present
Build Loop A	6-12	production rhythm	artifacts + scoring	daily proof chain
Build Loop B	13-20	packaging + outreach	case study + partner prep	clarity checks
Hardening	21-27	performance + trust	quality hardening	validation pass
Launch	28-30	alignment + readiness	launch packet	convergence review

Day-by-Day Visual + Breakdown

Day 01 - Baseline + Truth Audit

Field	Value
Primary objective	Baseline + Truth Audit
Stateful lane	Track continuity + cumulative signal
Stateless lane	Execute one isolated verifiable task
Confidence target	≥ 0.80 for day close

!<u>Day 01 panel</u>

Day 02 - Single Daily Focus

Field	Value
Primary objective	Single Daily Focus
Stateful lane	Track continuity + cumulative signal
Stateless lane	Execute one isolated verifiable task
Confidence target	≥ 0.80 for day close

!<u>Day 02 panel</u>

Day 03 - Local-Only Reliability

Field	Value
Primary objective	Local-Only Reliability
Stateful lane	Track continuity + cumulative signal
Stateless lane	Execute one isolated verifiable task
Confidence target	≥ 0.80 for day close

!<u>Day 03 panel</u>

Day 04 - Health + Recovery Rhythm

Field	Value
Primary objective	Health + Recovery Rhythm
Stateful lane	Track continuity + cumulative signal
Stateless lane	Execute one isolated verifiable task
Confidence target	≥ 0.80 for day close

!<u>Day 04 panel</u>

Day 05 - Skill Stack Mapping

Field	Value
Primary objective	Skill Stack Mapping
Stateful lane	Track continuity + cumulative signal
Stateless lane	Execute one isolated verifiable task
Confidence target	≥ 0.80 for day close

!<u>Day 05 panel</u>

Day 06 - Workflow Compression

Field	Value
Primary objective	Workflow Compression
Stateful lane	Track continuity + cumulative signal
Stateless lane	Execute one isolated verifiable task
Confidence target	≥ 0.80 for day close

!<u>Day 06 panel</u>

Day 07 - Decision Filter v1

Field	Value
Primary objective	Decision Filter v1
Stateful lane	Track continuity + cumulative signal
Stateless lane	Execute one isolated verifiable task
Confidence target	≥ 0.80 for day close

!<u>Day 07 panel</u>

Day 08 - Confidence Scoring

Field	Value
Primary objective	Confidence Scoring
Stateful lane	Track continuity + cumulative signal
Stateless lane	Execute one isolated verifiable task
Confidence target	≥ 0.80 for day close

!<u>Day 08 panel</u>

Day 09 - Output Proof Chain

Field	Value
Primary objective	Output Proof Chain
Stateful lane	Track continuity + cumulative signal
Stateless lane	Execute one isolated verifiable task

Field	Value
Confidence target	≥ 0.80 for day close

!<u>Day 09 panel</u>

Day 10 - Loop Stabilization

Field	Value
Primary objective	Loop Stabilization
Stateful lane	Track continuity + cumulative signal
Stateless lane	Execute one isolated verifiable task
Confidence target	≥ 0.80 for day close

!<u>Day 10 panel</u>

Day 11 - Audience Signal Pass

Field	Value
Primary objective	Audience Signal Pass
Stateful lane	Track continuity + cumulative signal
Stateless lane	Execute one isolated verifiable task
Confidence target	≥ 0.80 for day close

!<u>Day 11 panel</u>

Day 12 - Offer Clarity

Field	Value
Primary objective	Offer Clarity
Stateful lane	Track continuity + cumulative signal
Stateless lane	Execute one isolated verifiable task
Confidence target	≥ 0.80 for day close

!<u>Day 12 panel</u>

Day 13 - Artifact Packaging

Field	Value
Primary objective	Artifact Packaging
Stateful lane	Track continuity + cumulative signal
Stateless lane	Execute one isolated verifiable task
Confidence target	≥ 0.80 for day close

!<u>Day 13 panel</u>

Day 14 - Feedback Intake

Field	Value
Primary objective	Feedback Intake
Stateful lane	Track continuity + cumulative signal
Stateless lane	Execute one isolated verifiable task
Confidence target	≥ 0.80 for day close

!<u>Day 14 panel</u>

Day 15 - Iteration Sprint

Field	Value
Primary objective	Iteration Sprint
Stateful lane	Track continuity + cumulative signal
Stateless lane	Execute one isolated verifiable task
Confidence target	≥ 0.80 for day close

!<u>Day 15 panel</u>

Day 16 - Automation Guardrails

Field	Value
Primary objective	Automation Guardrails
Stateful lane	Track continuity + cumulative signal
Stateless lane	Execute one isolated verifiable task
Confidence target	≥ 0.80 for day close

!<u>Day 16 panel</u>

Day 17 - Cost/Value Check

Field	Value
Primary objective	Cost/Value Check
Stateful lane	Track continuity + cumulative signal
Stateless lane	Execute one isolated verifiable task
Confidence target	≥ 0.80 for day close

!<u>Day 17 panel</u>

Day 18 - Distribution Prep

Field	Value
Primary objective	Distribution Prep
Stateful lane	Track continuity + cumulative signal
Stateless lane	Execute one isolated verifiable task
Confidence target	≥ 0.80 for day close

!<u>Day 18 panel</u>

Day 19 - Case Study Build

Field	Value
Primary objective	Case Study Build
Stateful lane	Track continuity + cumulative signal
Stateless lane	Execute one isolated verifiable task

Field	Value
Confidence target	≥ 0.80 for day close

!<u>Day 19 panel</u>

Day 20 - Partner Outreach

Field	Value
Primary objective	Partner Outreach
Stateful lane	Track continuity + cumulative signal
Stateless lane	Execute one isolated verifiable task
Confidence target	≥ 0.80 for day close

!<u>Day 20 panel</u>

Day 21 - Performance Review

Field	Value
Primary objective	Performance Review
Stateful lane	Track continuity + cumulative signal
Stateless lane	Execute one isolated verifiable task
Confidence target	≥ 0.80 for day close

!<u>Day 21 panel</u>

Day 22 - Bottleneck Removal

Field	Value
Primary objective	Bottleneck Removal
Stateful lane	Track continuity + cumulative signal
Stateless lane	Execute one isolated verifiable task
Confidence target	≥ 0.80 for day close

!<u>Day 22 panel</u>

Day 23 - System Simplification

Field	Value
Primary objective	System Simplification
Stateful lane	Track continuity + cumulative signal
Stateless lane	Execute one isolated verifiable task
Confidence target	≥ 0.80 for day close

!<u>Day 23 panel</u>

Day 24 - Trust Signal Upgrade

Field	Value
Primary objective	Trust Signal Upgrade
Stateful lane	Track continuity + cumulative signal
Stateless lane	Execute one isolated verifiable task
Confidence target	≥ 0.80 for day close

!<u>Day 24 panel</u>

Day 25 - Operator Resilience

Field	Value
Primary objective	Operator Resilience
Stateful lane	Track continuity + cumulative signal
Stateless lane	Execute one isolated verifiable task
Confidence target	≥ 0.80 for day close

!<u>Day 25 panel</u>

Day 26 - Scale Test Day

Field	Value
Primary objective	Scale Test Day
Stateful lane	Track continuity + cumulative signal
Stateless lane	Execute one isolated verifiable task
Confidence target	≥ 0.80 for day close

!<u>Day 26 panel</u>

Day 27 - Quality Hardening

Field	Value
Primary objective	Quality Hardening
Stateful lane	Track continuity + cumulative signal
Stateless lane	Execute one isolated verifiable task
Confidence target	≥ 0.80 for day close

!<u>Day 27 panel</u>

Day 28 - Narrative Alignment

Field	Value
Primary objective	Narrative Alignment
Stateful lane	Track continuity + cumulative signal
Stateless lane	Execute one isolated verifiable task
Confidence target	≥ 0.80 for day close

!<u>Day 28 panel</u>

Day 29 - Launch Readiness

Field	Value
Primary objective	Launch Readiness
Stateful lane	Track continuity + cumulative signal
Stateless lane	Execute one isolated verifiable task

Field	Value
Confidence target	≥ 0.80 for day close

!<u>Day 29 panel</u>

Day 30 - 30-Day Convergence Review

Field	Value
Primary objective	30-Day Convergence Review
Stateful lane	Track continuity + cumulative signal
Stateless lane	Execute one isolated verifiable task
Confidence target	≥ 0.80 for day close

!<u>Day 30 panel</u>
