

Lantern OS x Spanish Abode Founder Route Convergence

Date: 2026-05-28
Artifact standard: Lantern OS grade - diagrammatic, public-safe, RAG-indexable, founder-relevant, validation-ready.
Primary image: LANTERN-OS-SPANISH-ABODE-FOUNDER-ROUTE-CONCEPT-SHEET-2026-05-28.png
PDF: artifacts/LANTERN-OS-SPAIN-PARIS-RAGDOLLHOUSE-CONVERGENCE-2026-05-28.pdf

ONE-LINE STANDARD

The Rose / Lantern sheet is the quality target. Future Lantern OS route artifacts should be concept sheets, not loose mood boards: structured panels, operational notes, clear private-IP boundaries, and validation status.

SCOPE

This report converges the Spain / Paris / RAG Dollhouse / field van / guardian-figure / Rose mechanism thread into one public-safe founder route artifact.

The sheet does not disclose raw uploaded Rose geometry, exact dimensions, fabrication details, patent claim language, or prototype details. It names the dependency lane and shows where the concept fits in Lantern OS.

SYSTEM PANELS

- 1. Spanish Abode - Home Node**
Retrofitted villa, local-first workshop, RAG Dollhouse inside, route memory, and founder packet staging.
- 2. Operational Route Line**
 - Old/coastal: Spanish Abode -> Madrid -> Zaragoza -> Barcelona -> Montpellier -> Lyon -> Paris.
 - Logistics: Spanish Abode -> Madrid -> Bilbao/San Sebastian -> Bordeaux -> Paris.
 - Converged: Spanish Abode -> Madrid -> Barcelona -> Lyon -> Paris.
- 3. Field Van - Mobile Deployment Cabin**
Mobile deployment concept carrying ring tools, calibration kit, private-IP dependency packet, and the initial batch-of-2 lead process.
- 4. Ring + Rose Mechanism Intake**
Public shell only. The mechanism is represented as an intake/dependency lane, not as disclosed geometry.
- 5. Paris Roads - Founder Endpoint**
Founder meeting / pitch packet / demo story endpoint. The endpoint remains non-production until validated.
- 6. Guardian Figures - Visual Language**
Two adult founder-route guardians, blonde and pink-haired, fully clothed, mature, protective, professional, non-sexual, and symbolic.
- 7. RAG Dollhouse Placement**
Spanish Abode, field van, Paris Roads, ring, Rose intake, batch-of-2 lead process, artifacts, validation, and boundary are stored as rooms/nodes.
- 8. Public-Safe Boundary + Status**
Explicit separation between public-safe outputs and held/private material.

BATCH-OF-2 LEAD PROCESS

This is a lead process, not a shipment claim.

Step	Public-safe action	Gate
1	Identify possible vendor / fabrication / logistics lanes	No order language until reviewed
2	Collect non-binding quote requirements	No exact Rose mechanism geometry in public docs
3	Prepare dependency manifest	Mark private-IP packet as held

Step	Public-safe action	Gate
4	Create validation checklist	No production claim
5	Review batch-of-2 feasibility	Human approval before spend / shipment

PRIVATE-IP / PUBLIC-SAFE BOUNDARY

Public-safe:

- Route concept.
- System placement.
- RAG Dollhouse node map.
- Van deployment concept.
- Batch-of-2 lead process framing.
- Artifact pointers.
- Validation state.

Held/private:

- Raw Rose / Kevin C. Rose uploaded images.
- Exact dimensions.
- Fabrication details.
- Patent claim drafting.
- Prior-art notes.
- Prototype details.
- Actual supplier quotes until reviewed.
- Any shipment, production, or legal claim.

ARTIFACT POINTERS

Artifact	Intended path	Status
Concept sheet PNG	LANTERN-OS-SPANISH-ABODE-FOUNDER-ROUTE-CONCEPT-SHEET-2026-05-28.png	generated
Repo report MD	reports/LANTERN-OS-SPAIN-PARIS-RAGDOLLHOUSE-CONVERGENCE-2026-05-28.md	generated
PDF report	artifacts/LANTERN-OS-SPAIN-PARIS-RAGDOLLHOUSE-CONVERGENCE-2026-05-28.pdf	generated
Validation JSON	artifacts/LANTERN-OS-SPAIN-PARIS-RAGDOLLHOUSE-CONVERGENCE-VALIDATION-2026-05-28.json	generated

VALIDATION CHECKLIST

- [x] 8 numbered panels.
- [x] Dark technical header.
- [x] Clean white technical sheet layout.
- [x] Route map included.
- [x] Van cutaway included.
- [x] Spanish Abode panel included.
- [x] Paris Roads panel included.
- [x] Guardian figures are adult, fully clothed, and non-sexual.
- [x] RAG Dollhouse placement included.
- [x] Public-safe / private-IP boundary included.
- [x] Artifact/status table included.

- [x] No raw Rose geometry.
- [x] No exact dimensions.
- [x] No patent claim.
- [x] No shipment claim.
- [x] No production claim.

NEXT SAFEST ACTION

Use the generated concept sheet as the Lantern OS grade standard for the Spain / Paris founder route. Treat later mood-board art as secondary visual exploration only unless converted into this structured sheet format.
