

Mookman11 Perfect Report — Flat File Publication

Status: published flat-file report

Branch: master

Repo: alex-place/lantern-os

Revision: v5 real-image candidate convergence

Prepared: 2026-05-26 America/New_York

Subject handle: Mookman11

Prior alias correction: request began as mookman1111; operator-provided search evidence indicates the likely public handle is mookman11 / Mookman11.

1. EXECUTIVE SUMMARY

This flat file converges the prior !perfect PDF work into a repository-native Markdown report that can live directly on master without binary PDF dependency.

The strongest evidence currently available in-session is the operator-provided Google results page for mookman11, which surfaced public-facing platform signals for YouTube, Twitch, TikTok, OP.GG, and Limitless. The report treats those results as a search snapshot, not as independently verified identity proof.

A later operator update supplied a portrait image and the profile URL facebook.com/micah.shively.1#. That evidence is logged here as an operator-supplied real-image/profile candidate. It is not treated as independent proof that the depicted person owns or operates Mookman11; no identity claim is made from the image.

The safest current assessment is:

- Mookman11 appears to be a gaming/content creator handle.
- The visible platform footprint is centered on Battlefield 6 clips/streaming plus adjacent gaming activity.
- YouTube, Twitch, and TikTok appear to be the primary public creator surfaces from the operator-provided SERP.
- OP.GG and Limitless appear to provide secondary competitive/game-profile signals.
- A candidate Facebook profile URL and portrait have been supplied by the operator, but the link between that profile/image and Mookman11 requires direct confirmation.
- Real images should be added only from verified public screenshots or account-owned assets, with source URL, capture date, caption, alt text, and usage note.

No private identity, real name, location, affiliation, or personal biography is claimed here.

2. SOURCE DISCIPLINE

Verified in this session

Evidence type	Status	Notes
Operator SERP paste	Available	The user pasted Google search results for mookman11.
Exact mookman11 platform URLs	Partially available	YouTube, Twitch, TikTok, and OP.GG were visible in the pasted results; some URLs were truncated by the search page format.
Independent social-page crawl	Not available	Live social/profile pages were not independently fetched in this session.
Battlefield 6 market context	Available	Reuters reported EA's Battlefield 6 launch sales/engagement statement.
Operator-supplied Facebook URL	Available but unverified	User supplied facebook.com/micah.shively.1#; direct public fetch/corroborating web search did not verify a Mookman11 link in-session.

Evidence type	Status	Notes
Operator-supplied portrait image	Available but unverified	Uploaded JPEG: 504 x 504 px, 30,110 bytes, SHA-256 366b30285d82090df573c800735af0715903ef1830de0460a0a35788edba346b.
Real profile/project images	Partially staged	The portrait is staged as a candidate image, not embedded as verified documentary identity evidence.

Publication rule

Every claim below is either:

- 1. sourced to the operator-provided SERP snapshot,
- 2. sourced to a current public web source,
- 3. sourced to operator-supplied evidence,
- 4. framed as a hypothesis, or
- 5. marked as requiring direct refresh before public release.

The uploaded portrait must not be used to identify a person by name. It can only be used if the operator or the subject confirms that it is approved for this report and connected to the Mookman11 creator identity.

3. OPERATOR-PROVIDED SEARCH SNAPSHOT

The operator pasted search results for `mookman11` showing the following public signals:

Platform / source	Visible result	Evidence from pasted SERP	Confidence
YouTube	Mookman11 / @mookman11	208 subscribers, 249 videos, description line: "Big Battlefield 6 guy"	Medium; requires direct channel refresh
Twitch	Mookman11	340+ / 347 followers, "Come join us in the Man Cave!", Discord and Twitter links shown	Medium; requires direct channel refresh
TikTok	Mookman11 / @mookman11	160+ followers, "Video Game content creator and streamer. Find me on twitch @Mookman11."	Medium; requires direct profile refresh
OP.GG	Mookman11#Cyphr	League of Legends summoner result shown as Emerald 3 with visible win/loss/rank snapshot	Medium-low; game-profile match should be verified by handle owner
Twitch mobile clips	Mookman11's Clips	Result says clips include Battlefield 6 and other content	Medium; requires direct page refresh
Limitless TCG	Mookman11	Lagoon Crew Pocket Season 5 ranking result; rank 314, 5 points visible in pasted SERP	Low-medium; exact URL was truncated in the pasted SERP

4. PUBLIC CREATOR POSITIONING

Based on the operator-provided SERP, the public-facing creator positioning appears to be:

> Mookman11 is a gaming streamer/content creator with visible emphasis on Battlefield 6 clips, Twitch streaming, and short-form gaming highlights.

The strongest creator-context phrases from the pasted SERP are:

- "Big Battlefield 6 guy" from the YouTube result.
- "Come join us in the Man Cave!" from the Twitch result.
- "Video Game content creator and streamer. Find me on twitch @Mookman11." from the TikTok result.

- Multiple Battlefield 6 clip/video titles in YouTube/TikTok results.

These statements should be refreshed directly from the live profiles before any external publication.

5. BATTLEFIELD 6 CONTEXT

Battlefield 6 is relevant because the operator-provided SERP shows multiple Mookman11 videos/clips around Battlefield 6 and because the YouTube result describes the creator as a “Big Battlefield 6 guy.”

Reuters reported that Electronic Arts said Battlefield 6 sold more than seven million copies in its first three days after its October 10, 2025 release. Reuters also reported EA's stated engagement figures: more than 172 million online matches and more than 15 million watched hours on streaming platforms during the launch window.

Source:

- Reuters — “EA's latest 'Battlefield 6' sells over seven million copies during opening three days”

<https://www.reuters.com/business/media-telecom/eas-latest-battlefield-6-sells-over-seven-million-copies-during-opening-three-2025-10-16/>

Implication for the creator report:

- A Battlefield 6-focused creator had a large launch-window audience opportunity.
- Short clips, streak videos, kill-record clips, and weapon/highlight videos match the high-interest launch environment.
- The report should frame Mookman11's Battlefield content within this category context, but not claim audience performance beyond visible platform metrics.

6. CONTENT TIMELINE FROM SEARCH SNAPSHOT

The pasted SERP included several visible video items. These should be treated as discovery leads until each source page is directly refreshed.

Date visible in SERP	Title / description fragment	Platform	Notes
2025-10-29	“BF6 NEW MAP AND NEW MODE #battlefield6 #gaming #clips ...”	YouTube	Battlefield 6 update / mode clip signal
2025-11-20	“BREAKING THE KILL RECORD IN BF6 NEW MODE ...”	YouTube	Performance/highlight content signal
2025-11-27	“MAP AWARENESS LEADS TO CLEAN 11 STREAK ...”	YouTube	Skill/highlight content signal
2025-12-04	“THIS GUN IS INSANE AT EVERY RANGE #battlefield6 ...”	YouTube	Weapon/highlight content signal
Unknown	“THERE'S TOO MANY, BOYS #battlefield6 #gaming #bf6 ...”	YouTube	SERP showed 1.1K+ views and “6 months ago”
Unknown	“BEST DEFIB ASSASSIN IN BF6 ...”	TikTok	SERP showed 950+ views and 63 likes

7. PLATFORM READOUT

YouTube

Current SERP evidence:

- Handle/channel: Mookman11 / @mookman11
- Visible count: 208 subscribers
- Visible upload count: 249 videos
- Visible positioning: “Big Battlefield 6 guy”

- Visible playlists: Battlefield 6, Marvel Rivals Gameplay, Rocket Raccoon Only to Eternity, Dark and Darker, Helldivers 2, Warzone 2 Clips, Random Throwing Knife

Interpretation:

YouTube appears to be the archive/library surface for searchable clips and playlists. Battlefield 6 appears to be the strongest current content lane in the pasted SERP.

Refresh needed:

- Channel screenshot
- About tab screenshot
- Videos tab screenshot filtered by newest/popular
- Playlist screenshot
- Top five video URLs and current views

Twitch

Current SERP evidence:

- Channel: Mookman11
- Visible followers: 340+ / 347 followers
- Visible phrase: "Come join us in the Man Cave!"
- Visible connected surfaces: Discord, Twitter
- Result references Twitch clips and Battlefield 6 streaming

Interpretation:

Twitch appears to be the live-community surface, while YouTube/TikTok carry clips and highlights.

Refresh needed:

- Channel page screenshot
- About panel screenshot
- Schedule screenshot if public
- Clips page screenshot
- Current follower count and most recent stream category

TikTok

Current SERP evidence:

- Handle: @mookman11
- Visible followers: 160+
- Bio fragment: "Video Game content creator and streamer. Find me on twitch @Mookman11."
- Visible Battlefield 6 clip result with 950+ views and 63 likes

Interpretation:

TikTok appears to be a short-form discovery surface for highlight clips and traffic routing back to Twitch.

Refresh needed:

- Profile screenshot
- Bio screenshot
- Top/recent videos screenshot
- Current follower/like counts where public

OP.GG

Current SERP evidence:

- Summoner: Mookman11#Cyphr
- Region: NA
- Visible rank: Emerald 3
- Visible record: 34W / 40L, 46% win rate

- Visible ladder rank: 97,891 / 8.35% of top

Interpretation:

This is a possible secondary gaming identity signal, not definitive creator identity proof. It should be included only as “possible related handle” unless the owner confirms it.

Refresh needed:

- Direct OP.GG URL
- Current screenshot
- Confirmation that the summoner belongs to the same creator

Limitless

Current SERP evidence:

- Name: Mookman11
- Context: Lagoon Crew Pocket Season 5
- Visible rank: 314
- Visible points: 5
- Visible tournament row dated January 22, 2026

Interpretation:

This is a possible TCG/tournament signal, but the pasted SERP URL was truncated. Treat as possible related result until directly refreshed.

Refresh needed:

- Exact Limitless URL
- Ranking screenshot
- Tournament row screenshot
- Confirmation it is the same handle owner

8. EVIDENCE CONFIDENCE MODEL

Confidence	Meaning	Current examples
High	Directly fetched from a public source in-session or supplied as canonical by owner	Reuters Battlefield 6 market context
Medium	Visible in operator-provided SERP with clear handle match	YouTube, Twitch, TikTok Mookman11 results
Medium-low	Handle match exists, but cross-platform ownership not confirmed	OP.GG Mookman11#Cyphr; operator-supplied Facebook profile URL
Low-medium	Search result visible, but URL truncated or platform context needs refresh	Limitless Mookman11 ranking
Unverified operator asset	Supplied directly by operator but not independently corroborated	Uploaded portrait image and facebook.com/micah.shively.1#
Unknown	Not evidenced	Real name, location, age, private affiliations, exact cross-platform ownership

9. REAL IMAGE CAPTURE BOARD

No documentary images are embedded in this flat file. The following real-image assets should be captured and added only after verification.

Slot	Asset	Source requirement	Caption	Alt text
1	YouTube channel header/profile	Direct screenshot of youtube.com/@mookman11	"Mookman11 YouTube channel snapshot, captured YYYY-MM-DD."	"Screenshot of the Mookman11 YouTube channel page."
2	Twitch channel page	Direct screenshot of twitch.tv/Mookman11	"Mookman11 Twitch channel snapshot, captured YYYY-MM-DD."	"Screenshot of the Mookman11 Twitch channel page."
3	TikTok profile	Direct screenshot of tiktok.com/@mookman11	"Mookman11 TikTok profile snapshot, captured YYYY-MM-DD."	"Screenshot of the Mookman11 TikTok profile page."
4	YouTube Battlefield 6 videos	Direct screenshot of channel videos/search results	"Battlefield 6 video results on Mookman11 channel, captured YYYY-MM-DD."	"Screenshot showing Battlefield 6 videos associated with Mookman11."
5	OP.GG profile	Direct screenshot of confirmed Mookman11#Cyphr profile	"Possible related OP.GG profile snapshot, captured YYYY-MM-DD."	"Screenshot of OP.GG summoner profile Mookman11#Cyphr."
6	Limitless ranking	Direct screenshot of exact ranking page	"Possible related Limitless ranking snapshot, captured YYYY-MM-DD."	"Screenshot of Limitless ranking entry for Mookman11."
7	Operator-supplied Facebook profile/portrait candidate	Direct confirmation from subject/operator that this profile and uploaded portrait are approved and connected to Mookman11	"Operator-supplied portrait/profile candidate for Mookman11 report, captured/provided YYYY-MM-DD; identity connection pending confirmation."	"Operator-supplied portrait of a seated person in a restaurant setting; identity connection to Mookman11 not independently verified."

Usage rule:

- Real screenshots must include visible source URL or be logged with source URL separately.
- Decorative/generative art must be labeled "Illustrative art — not a documentary image."
- Do not use unrelated stock imagery as a stand-in for the creator.
- Do not infer identity from a face image. The portrait can only be used if the subject/operator confirms usage rights and the connection to the Mookman11 creator profile.

10. CANDIDATE FACEBOOK/PROFILE IMAGE EVIDENCE

The operator supplied:

- URL text: facebook.com/micah.shively.1#
- Uploaded file: 428366336_7169843566438588_5384744157287473751_n.jpg
- File type: JPEG
- Dimensions: 504 x 504 px
- Size: 30,110 bytes
- SHA-256: 366b30285d82090df573c800735af0715903ef1830de0460a0a35788edba346b

Session verification result:

- Public web search did not surface a reliable corroborating link between Mookman11 and the supplied Facebook URL/profile slug.
- A direct public fetch of the supplied Facebook URL was not available through the current browsing path.
- The uploaded portrait is therefore recorded as an operator-provided candidate asset, not as verified identity evidence.

Required verification before using this as a real image in a public report:

1. Capture the Facebook profile page with visible URL and date.

- 2. Confirm that the profile owner is the same person/entity as the Mookman11 creator account.
- 3. Confirm permission to use the portrait in this report.
- 4. Add a credit row with source URL, capture date, uploader/source, usage permission, caption, and alt text.
- 5. If permission or identity linkage cannot be confirmed, keep the image out of the public report.

11. VISUAL / ART DIRECTION

The PDF design direction can be preserved in future assets:

- Color palette: dark gaming UI, electric blue/cyan accents, warm highlight orange.
- Visual motifs: scope reticles, scoreboard cards, waveform bars, clip timeline, stream-room neon, evidence badges.
- Report sections: cover, executive summary, platform matrix, evidence map, timeline, real-image board, publication checklist.
- Art disclaimer: all non-screenshot imagery should be marked as illustrative.

Suggested future flat assets:

- reports/assets/mookman11/evidence-map.svg
- reports/assets/mookman11/timeline.svg
- reports/assets/mookman11/source-matrix.svg
- reports/assets/mookman11/screenshots/README.md
- reports/assets/mookman11/screenshots/facebook-profile-candidate.md

12. PUBLICATION CHECKLIST

Before public release beyond this repository:

- ☐ Directly open and screenshot YouTube channel.
- ☐ Directly open and screenshot Twitch channel.
- ☐ Directly open and screenshot TikTok profile.
- ☐ Directly confirm whether OP.GG Mookman11#Cyphr belongs to the same person/entity.
- ☐ Directly confirm whether Limitless Mookman11 belongs to the same person/entity.
- ☐ Directly open the operator-supplied Facebook profile URL and capture a screenshot with visible URL/date.
- ☐ Confirm whether the supplied Facebook profile/portrait belongs to or is approved by the same person/entity operating Mookman11.
- ☐ Confirm permission to use the uploaded portrait image in the report.
- ☐ Refresh all follower/subscriber/view counts on publication day.
- ☐ Add image credits and capture dates.
- ☐ Remove any uncertain platform match that cannot be verified.
- ☐ Keep all private identity claims out unless explicitly provided and approved by the subject.

13. REJECTED / UNSAFE CLAIMS

The following claims are not supported and should not be added without direct evidence:

- real name
- exact location
- age/date of birth
- employer/school
- private Discord membership details
- ownership of OP.GG or Limitless profiles without confirmation
- ownership of the supplied Facebook profile without confirmation
- claim that the uploaded portrait depicts the Mookman11 creator without subject/operator confirmation
- revenue, income, sponsorship, or partnership claims
- any claim that a generated illustration depicts the real person

14. SOURCE APPENDIX

Operator-provided SERP evidence

Pasted by operator in the active ChatGPT session for query `mookman11`. Visible result categories included YouTube, Twitch, TikTok, OP.GG, Twitch clips, YouTube clips, TikTok clips, and Limitless.

Operator-provided Facebook/profile candidate evidence

- URL text supplied by operator: `facebook.com/micah.shively.1#`
- Uploaded portrait file supplied by operator: `428366336_7169843566438588_5384744157287473751_n.jpg`
- In-session file metadata: JPEG, 504 x 504 px, 30,110 bytes, SHA-256
`366b30285d82090df573c800735af0715903ef1830de0460a0a35788edba346b`

Public web source used for category context

- Reuters: "EA's latest 'Battlefield 6' sells over seven million copies during opening three days."
`https://www.reuters.com/business/media-telecom/eas-latest-battlefield-6-sells-over-seven-million-copies-during-opening-three-2025-10-16/`

Candidate platform URLs to refresh

- `https://www.youtube.com/@mookman11`
- `https://www.twitch.tv/Mookman11`
- `https://www.tiktok.com/@mookman11`
- `https://op.gg/lol/summoners/na/Mookman11-Cyphr`
- `https://www.facebook.com/micah.shively.1`

15. CONVERGENCE NOTES

This flat file supersedes the session PDFs as the repository-native text version:

- `mookman1111_perfect_report.pdf` — initial evidence audit for the original handle spelling.
- `mookman11_perfect_report_v2.pdf` — corrected to `Mookman11` using operator SERP evidence.
- `mookman11_perfect_report_v3.pdf` — stronger creator dossier with Battlefield 6 context and publication checklist.
- `reports/mookman11_perfect_report.md` — current master-published flat file with operator-supplied Facebook/profile candidate evidence.

Next safe step is to add verified screenshots and optional lightweight SVG art assets in a separate commit, after direct source capture and permission confirmation.
