

COMET LEAP 11-Day Cash Sprint

Generated: 2026-05-26.

Repo: <https://github.com/alex-place/lantern-os>

Status: one-shot validation of low-confidence convergence frames 7-12.

EXECUTIVE DECISION

The next 11 days should not chase abstract SaaS scale. The best cash path is manual, local-first, and offer-led:

- 1. COMET LEAP report pack.
- 2. Local RAG / repo cleanup sprint.
- 3. Windows / Lantern setup session.
- 4. Parent / homeschool creative learning packet.
- 5. Small-business AI cleanup and training session.

These use artifacts already in the repo and can be sold before more product buildout.

WEB VALIDATION BASE

Source	Signal	Confidence Effect
U.S. Census BTOS, https://www.census.gov/data/experimental-data-products/business-trends-and-outlook-survey.html	Timely official business-condition data, including AI-use supplements	Keeps SMB AI claims grounded; do not overstate adoption
U.S. Chamber 2025 small-business AI report, https://www.uschamber.com/technology/empowering-small-business-the-impact-of-technology-on-u-s-small-business	Reports almost 60% of small businesses using AI for operations and 82% expecting future help	Supports paid AI setup/training, but not huge budgets
Pew homeschooling summary, https://www.pewresearch.org/short-reads/2025/02/20/a-look-at-homeschooling-in-the-us/	Homeschooling motives include religious instruction and nontraditional approach	Supports parent/family learning packets
Johns Hopkins homeschool growth 2024-2025, https://education.jhu.edu/edpolicy/policy-research-initiatives/homeschool-hub/homeschool-growth-2024-2025/	Homeschooling grew at an average 4.9% in 2024-2025	Supports homeschool/alternative education lead list
EdChoice K-12 tutoring survey, https://www.edchoice.org/2025-a-kaleidoscope-view-of-k12-tutoring-in-america/	Parent interest in tutoring is material, especially private school/special education families	Supports tutoring-adjacent offers, with pilot validation
Business.com 2026 SMB AI Outlook, https://www.business.com/articles/ai-usage-smb-workplace-study/	Tracks SMB AI usage and worker adoption changes	Supports training/implementation offers as secondary evidence

CONFIDENCE RESET FOR FRAMES 7-12

Frame	Old Confidence	New Confidence	Reason
7. COMET LEAP reports	72-80	82	Existing PDFs, packet assets, and service packaging are local-verified

Frame	Old Confidence	New Confidence	Reason
8. Local RAG / IP compression	75-78	83	Repo/RAG skill assets now exist; SMB AI confusion supports cleanup services
9. Privacy AI assistant	58-74	72	Strong setup need, but trust/support burden remains
10. Subscription stream	55-65	48	No payment/retention data yet; keep manual-first
11. 30-day cash path	55-75	78	11-day manual sprint can produce calls/invoices before product scale
12. Future scale path	25-45	35	Still speculative until conversion, retention, and repeatable channel data exist

11-DAY CASH PLAN

Goal: execute the existing offers and create cash conversations/invoices, not invent more offers or perfect more software.

Day	Action	Offer	Output	Cash Target
1	Build one-page offer sheet from existing PDFs	COMET LEAP Founder Report Pack	PDF + message script	\$0
2	Send 10 warm messages	Report pack / RAG cleanup	3 calls booked target	\$0-\$199
3	Package school/family art-learning example	Parent creative learning packet	sample packet + price	\$49-\$149
4	Offer 2 paid setup slots	Windows/Lantern setup	calendar slots	\$99-\$298
5	Run one RAG/repo audit demo	Local RAG cleanup sprint	before/after artifact	\$199-\$499
6	Follow up all warm leads	any of the 5 offers	invoice links/messages	\$99-\$499
7	Publish one proof post	report/art/RAG story	local proof asset	\$0-\$149
8	Pitch 5 small businesses	AI cleanup/training	1 pilot target	\$199-\$750
9	Pitch 5 homeschool/parent leads	learning packet/setup	1 pilot target	\$49-\$299
10	Deliver first paid packet/session	highest-response offer	testimonial/proof ask	\$199-\$999
11	Consolidate cash and objections	choose winning lane	next 11-day sprint plan	\$250-\$1,500 total

OFFER STACK

Offer	Price	Buyer	Proof Asset	Confidence
COMET LEAP Founder Report Pack	\$99-\$299	founders, indie builders	existing PDFs + front page	82
Local RAG / Repo Cleanup Sprint	\$199-\$999	builders, consultants, small orgs	flat RAG dollhouse	83
Windows/Lantern Setup Session	\$99-\$299	local users/families	Windows surfaces + icon	80
Parent Creative Learning Packet	\$49-\$149	parents, homeschool, school-adjacent	Gage art packet example	76

Offer	Price	Buyer	Proof Asset	Confidence
Small-Business AI Cleanup	\$199-\$750	SMB owner with messy tools	Clean Storm + RAG demo	74

MESSAGE SCRIPT

I built a local-first AI/RAG convergence packet that turns messy docs, repos, PDFs, and ideas into a clean report or working setup.

I am doing 2-3 paid pilot slots this week:

1. Founder report pack
2. Repo/RAG cleanup sprint
3. Family/school creative learning packet
4. Local AI setup session

Want me to run a quick before/after on one folder, PDF set, or project?

BAYESIAN BELIEF LEDGER SEEDS

Claim	Prior	Evidence	Posterior	Decision
Manual report/RAG offers can get cash faster than SaaS	0.65	local artifacts exist + SMB AI need signals	0.82	promote
Homeschool/parent packets are viable immediately	0.55	Pew/JHU/EdChoice + local Gage packet	0.76	candidate/promote
Subscription should be built now	0.55	no retention or payment data	0.48	hold
12-month \$15k+ MRR is forecastable now	0.35	no conversion data	0.35	hold

ONE-SHOT RULE

For the next 11 days, count only:

- calls booked;
- invoices sent;
- cash collected;
- paid pilots delivered;
- objections recorded.

Do not count:

- new offer ideas;
- abstract market size;
- likes;
- unreplied messages;
- future tokenomics;
- unreleased SaaS screens.

PRODUCT UNIVERSE COMPRESSION

Use reports/LANTERN-PRODUCT-UNIVERSE-ATLAS.md as the product map. The sprint does not need all knowledge inside the repo today; it needs a repeatable ladder for compressing verified knowledge into paid products.
